GOVERNMENT ENGINEERING COLLEGE, SIWAN

2nd sem Mid-term Examination- 2025

Branch– CSE-IoT Subject: Python Programming

Time: 01:30 hours **Max. Mark: 20**

Instructions: i. Attempt four questions in all.
ii. Question No. 1 is compulsory.

Question 1. Choose the correct answer. **(5x1=5)**

i. Who developed Python Programming Language?
a) Wick van Rossum b) Rasmus Lerdorf
c) Guido van Rossum d) Niene Stom

ii. Which of the following character is used to give single-line comments in Python?
a) // b) # c) ! d) /*

iii. What will be the output of the following Python function?
print(len(["hello", 2, 4, 6]))
a) Error b) 6 c) 4 d) 3

iv. What will be the value of the following Python expression?
print(4+2**5//10)
a) 3 b) 7 c) 77 d) 0

v. What will be the output of the following Python code?
var = "snow world"
print(var[3] = 's')
a) snow b) snow world c) Error d) snos world

Question 2. **(5)**
a) Write a program to define a function with multiple return values.
b) Write a program to find the largest element among three Numbers.

Question 3. **(5)**
a) Write a program to calculate the factorial of a number using loop.
b) Write a program to calculate the factorial of a number using recursion.

Question 4. **(5)**
a) Write a program to check whether a number is prime or not.
b) Write a program that reads numbers in a loop and skips negative numbers using the continue statement.

Question 5. **(5)**
a) Write a program to print the Fibonacci sequence using while loop
b) Write a program to find the length of the string without using any library functions.
